Summer job: Project Engineer

We are looking for a **Project Engineer** as a *summer trainee* to strengthen our project team in Marine business unit. The summer trainee will be working especially with HI-FOG project design and documentation related tasks. The duration of the summer trainee period is approximately 4 months and the start would be in May 2019.

Main tasks include:

- HI-FOG system design, pressure loss and material calculations.
- Preparing project manuals/documentation.
- Support project managers other project related tasks.

The ideal candidate has:

- Studies e.g. in mechanical / automation / energy engineering.
- Proficiency in MS Office tools and AutoCAD
- Ability to work in a team towards common goal
- Fluent English , both spoken and written
- Ability to work systematically with multiple tasks
- Enthusiastic attitude

Project Engineer position offers you a great view to the technology edge HI-FOG products / systems. The position is located at Marioff Corporation new headquarters in Plaza Business Park HALO, Vantaa.

Further information:

Tero Louhivaara
Senior Manager - Marine technology
