Project trainee, installed base data

We are looking for a Project trainee to strengthen our Land Aftersales Team. Join us to our mission to protect people, property and business continuity!

As a Project trainee you will be responsible for project and customer data digitalization and archive management for site database for HI-FOG land based field installations. The duration of the trainee period is approximately between 4 to 6 months and the start would be in April 2019. Part time job option is also possible.

Target is to build comprehensive installed base data to M-files information management system by utilizing the existing data stored in Marioff's local business units. Your main responsibility will be to gather project and site information to our Installed base system. You will also participate in developing installed base management processes.

As part of our Land Aftersales team you will work in close co-operation with our Global Land organization and Information Management team.

Your key responsibilities are:

- Project data digitalization
- Arranging data to country level installed base data
- Develop installed base management processes

To be successful in the role you have:

- Ability to perform the work tasks diligently and independently
- Good communication skills and active work attitude
- Positive attitude and willingness to learn
- Interest to develop data management systems and processes
- Basic understanding of ERP systems
- Proficiency in MS Office tools

We also value:

- Previous experience on using M-files or some other information management systems

This position is suitable for recent Bachelor or Master's graduate or person who is towards end of his/her studies in Engineering or Economics.

Protecting people, property and business continuity

We offer you a dynamic and international work environment in a company with high technology products, a strong growth strategy and people who are passionate about fire safety. The position is located in our modern and functional office premises in Vantaa. At Marioff we value diversity in all its forms and we believe that it is our excellent, highly skilled people who make success, competitive excellence and innovation happen.
