Sales Engineer, Sales Channels Business Unit

We are looking for a Sales Engineer for Channels Sales Solution Support team to support our land based HI-FOG water mist fire protection systems sales through international distributors and Business Units. The Sales Engineer is responsible for creating technical quotations in close co-operation with the Sales Managers. After an introduction period the candidate is expected to be able to independently create HI-FOG system designs on AutoCAD, system dimensioning and written quotations based on different applications.

The ideal candidate should be comfortable in an international business environment. The ability to work systematically, take personal responsibility and good team working skills are key assets in this position.

To be successful in the role you have:

- Fluent English, both spoken and written
- Experience with AutoCAD, ability to make technical designs
- Proficiency in MS Office tools
- Positive attitude and willingness to learn
- Ability to work under fast-paced, demanding environment with tight deadlines
- Bachelor or Master's degree in Engineering

We also value

- Fluency in Finnish, Swedish or other language
- Experience in fire protection
- Experience in hydraulics
- Experience in international business

We offer you a dynamic and international work environment in a company with high technology products, a strong growth strategy and people who are passionate about fire safety. The position is located in our modern and functional office premises in Vantaa. At Marioff we value diversity in all its forms and we believe that it is our excellent, highly skilled people who make success, competitive excellence and innovation happen.
